## Introduction to the Summary of Benefits for SmartValue Classic, Enhanced, Plus and Enhanced Plus

January 1, 2008 - December 31, 2008

Thank you for your interest in SmartValue. Our plans are offered by Blue Cross of California, a Medicare Advantage Private Fee-for-Service organization. This Summary of Benefits tells you some features of our plans. It doesn't list every service that we cover or list every limitation or exclusion. To get a complete list of our benefits, please call SmartValue and ask for the "Evidence of Coverage."

### You Have Choices in Your Health Care

As a Medicare beneficiary, you can choose from different Medicare options. One option is the Original (fee-for-service) Medicare Plan. Another option is a Medicare Advantage Private Fee-for-Service plan, like SmartValue. You make the choice. No matter what you decide, you are still in the Medicare Program.

You may join or leave a plan only at certain times. Please call SmartValue at the telephone number listed at the end of this introduction or 1-800-MEDICARE (1-800-633-4227) for more information. TTY users should call 1-877-486-2048. You can call this number 24 hours a day, 7 days a week.

### How Can I Compare My Options?

You can compare SmartValue and the Original Medicare Plan using this Summary of Benefits. The

charts in this booklet list some important health benefits. For each benefit, you can see what our plan covers and what the Original Medicare Plan covers.

Our members receive all of the benefits that the Original Medicare Plan offers. We also offer more benefits, which may change from year to year.

### Where Is SmartValue Available?

The service area for these plans includes: Alameda, Butte, Calaveras, Colusa, Contra Costa, Glenn, Imperial, Inyo, Kern, Kings, Lake, Lassen, Los Angeles, Los Angeles (Partial), Marin, Mariposa, Mendocino, Merced, Mono, Monterey, Nevada, Orange, Orange (Partial), Plumas, Riverside, Riverside (Partial), San Benito, San Bernardino, San Diego, San Luis Obispo, San Mateo, Santa Cruz, Shasta, Sierra, Siskiyou, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tuolumne, Ventura, Yuba counties, CA. You must live in one of these areas to join the plan.

## Who Is Eligible to Join SmartValue?

You can join SmartValue if you are entitled to Medicare Part A and enrolled in Medicare Part B and live in the service area. However, individuals with End-Stage Renal Disease are generally not eligible to enroll in SmartValue unless they are members of our organization and have been since their dialysis began.

## Can I Choose My Doctors?

As a member of SmartValue, you can use any Medicare doctor, specialist, or hospital that accepts Medicare payment and accepts the terms, conditions and payment rate of the Blue Cross of California plan. Blue Cross of California has the right to determine if the service or treatment ordered by your health care provider is covered under the Blue Cross of California plan.

## Does My Plan Cover Medicare Part B or Part D Drugs?

**SmartValue Plus** and **Enhanced Plus** do cover both Medicare Part B prescription drugs and Medicare Part D prescription drugs.

**SmartValue Classic** and **Enhanced** do cover Medicare Part B prescription drugs. **SmartValue Classic** and **Enhanced** do NOT cover Medicare Part D prescription drugs. As a member of **SmartValue Classic** or **Enhanced** you can receive prescription drug coverage by joining another Prescription Drug Plan. You can only join one Medicare Prescription Drug Plan.

## Where Can I Get My Prescriptions if I Join This Plan?

**SmartValue Plus** and **Enhanced Plus** have formed a network of pharmacies. You must use a network pharmacy to receive plan benefits. We may not pay for your prescriptions if you use an out-of-network pharmacy, except in certain cases. The pharmacies in our network can change at any time.

You can ask for a current Pharmacy Network List or visit us at [www.bluecrossca.com](http://www.bluecrossca.com). Our customer service number is listed at the end of this introduction.

Blue Cross of California has a list of preferred pharmacies. At these pharmacies, you may get your drugs at a lower copay or coinsurance. You may go to a non-preferred pharmacy, but you may have to pay more for your prescription drugs.

## What Is a Prescription Drug Formulary?

**SmartValue Plus** and **Enhanced Plus** use a formulary. A formulary is a list of drugs covered by your plan to meet patient needs. We may periodically add, remove, make changes to coverage limitations on certain drugs, or change how much you pay for a drug.

If we make any formulary change that limits our members' ability to fill their prescriptions, we will notify the affected enrollees before the change is made. We will send a formulary to you, and you can see our complete formulary on our Web site at [www.bluecrosscamedicarerx.com](http://www.bluecrosscamedicarerx.com).

If you are currently taking a drug that is not on our formulary or subject to additional requirements or limits, you may be able to get a temporary supply of the drug. You can contact us to request an exception or switch to an alternative drug listed on our formulary with your physician's help. Call us to see if you can get a temporary supply of the drug or for more details about our drug transition policy.

## How Can I Get Extra Help With Prescription Drug Plan Costs?

If you qualify for extra help with your Medicare prescription drug plan costs, your premium and costs at the pharmacy will be lower. When you join **SmartValue Plus** or **Enhanced Plus**, Medicare will tell us how much extra help you are getting. Then we will let you know the amount you will pay.

If you are not getting this extra help, you can see if you qualify by calling 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048. You can call this number 24 hours a day, 7 days a week.

## What Are My Protections in This Plan?

All Medicare Advantage Plans agree to stay in the program for a full year at a time. Each year, the plans decide whether to continue for another year. Even if a Medicare Advantage Plan leaves the program, you will not lose Medicare coverage. If a plan decides not to continue, it must send you a letter at least 90 days before your coverage will end. The letter will explain your options for Medicare coverage in your area.

As a member of **SmartValue Plus** and **Enhanced Plus**, you have the right to request a coverage determination, which includes the right to request an exception, the right to file an appeal if we deny coverage for a prescription drug, and the right to file a grievance. You have the right to request a coverage determination if you want us to cover a Part D drug that you believe should be covered. An exception is a type of coverage determination. You may ask us for an exception if you believe you need a drug that is not on our list of covered drugs or believe you should get a non-preferred drug at a lower out-of-pocket cost. You can also ask for an exception to cost utilization rules, such as a limit on the quantity of a drug.

If you think you need an exception, you should contact us before you try to fill your prescription at a pharmacy. Your doctor must provide a statement to support your exception request.

If we deny coverage for your prescription drug(s), you have the right to appeal and ask us to review our decision. Finally, you have the right to file a grievance if you have any type of problem with us or one of our network pharmacies that does not involve coverage for a prescription drug.

## What Is a Medication Therapy Management (MTM) Program?

A Medication Therapy Management (MTM) Program is a free service we may offer. You may be invited to participate in a program designed for your specific health and pharmacy needs.

You may decide not to participate but it is recommended that you take full advantage of this covered service if you are selected. Contact **SmartValue Plus** or **Enhanced Plus** for more details.

## What Types of Drugs May Be Covered Under Medicare Part B?

Outpatient prescription drugs that may be covered under Medicare Part B include, but are not limited to, the following types of drugs. Contact **SmartValue Classic** or **Enhanced** for more details.

- Some Antigens: If they are prepared by a doctor and administered by a properly instructed person (who could be the patient) under doctor supervision.
- Osteoporosis Drugs: Injectable drugs for osteoporosis for certain women with Medicare.
- Erythropoietin (Epoetin alpha or Epogen®): By injection if you have end-stage renal disease (permanent kidney failure requiring either dialysis or transplantation) and need this drug to treat anemia.
- Hemophilia Clotting Factors: Self-administered clotting factors if you have hemophilia.
- Injectable Drugs: Most injectable drugs administered incident to a physician's service.
- Immunosuppressive Drugs: Immunosuppressive drug therapy for transplant patients if the transplant was paid for by Medicare, or paid by a private insurance that paid as a primary payer to your Medicare Part A coverage, in a Medicare-certified facility.
- Some Oral Cancer Drugs: If the same drug is available in injectable form.
- Oral Anti-Nausea Drugs: If you are part of an anti-cancer chemotherapeutic regimen. Inhalation and infusion drugs provided through DME.

# Section 3

## 2008 Summary of Benefits for SmartValue

When you're a member, it's important that you understand your benefits so you can get the most out of your health care plan. We want your benefit information to be easy to understand and simple to use so we can serve you better.

Our PFFS plans were created to provide Medicare beneficiaries with coverage for medically-necessary hospital and doctor services with low or no monthly plan premiums. Some of our plans also include Medicare Part D Prescription Drug Coverage and coverage for routine vision care, dental care, and hearing examinations. *Please refer to Section 2 to find out which services are covered by each plan described in this Summary of Benefits.*

This section provides important additional information about some of the benefits listed earlier in Section 2.

### **Doctor and Hospital Choice** (see #2 in Section 2)

You may go to any doctor or hospital willing to accept the terms and conditions of the plan.

If you receive care from a provider who does not accept Medicare assignment, you will be responsible for any excess charges, up to 15% more than the Medicare-allowed amount.

Please note, a "primary care physician" is a health care professional who is trained to give you basic care. Examples include internists or family practice physicians. A "specialist physician" is a doctor who provides health care services for a specific disease or part of the body. Examples include oncologists (cancer specialists), cardiologists (heart specialists) and orthopedists (bone specialists).

### **Screening Services (see #8 in Section 2)**

You do not pay a copayment for the following screening services, but you may pay an office visit copayment: colorectal screenings, screening mammograms, bone mass measurement, Pap smears and pelvic exams, and prostate cancer screening exams.

If a colorectal screening exam includes biopsy or removal of a growth, the procedure will be considered outpatient surgery and your benefits for outpatient surgery will apply.

### **Outpatient Surgery/Services** (see #13 in Section 2)

Your office visit copayment will apply for any nonsurgical physician services in an outpatient hospital facility.

In addition, the outpatient surgery copayment applies for covered elective, scheduled (nonurgent, nonemergency) surgeries performed in an outpatient hospital or ambulatory surgical center.

### **Ambulance Services (see #14 in Section 2)**

You pay your ambulance copayment for each medically necessary trip to the hospital or dialysis center, from the hospital or dialysis center, or between facilities.

### **Emergency Care (see #15 in Section 2)**

You pay your emergency room (ER) copayment for each covered ER visit. If you are admitted to a hospital from an ER within 72 hours for the same or a related condition, you will not pay your ER copayment, but you will pay your inpatient hospital copayment if you have one.

### **Durable Medical Equipment and Prosthetic Devices** (see #18 and #19 in Section 2)

Durable Medical Equipment includes oxygen, wheelchairs, walkers, and hospital beds for home use.

Prosthetic Devices include arm, leg, back, and neck braces; artificial eyes; artificial limbs (and their replacement parts); breast prostheses (after mastectomy); and prosthetic devices needed to replace a body part or function, including Medicare-covered therapeutic shoes.

## **Diabetes Self-Monitoring Training, Nutrition Therapy and Supplies** *(see #20 in Section 2)*

You do not have a copayment for diabetes self-monitoring training. You may be responsible for a doctor's office visit copayment.

You are responsible for a copayment for each 30-day supply of blood glucose test strips, lancet devices and lancets, and glucose control solutions. You are responsible for coinsurance for blood glucose meters or glucose monitors.

If the plan includes Medicare Part D prescription drug coverage, supplies associated with the injection of insulin (specifically syringes, needles, alcohol swabs and gauze) are covered under Medicare Part D and not under Medicare Part B. If this plan does not include Part D drug benefits, this plan will not cover these items.

## **Diagnostic Tests, X-Rays and Lab Services** *(see #21 in Section 2)*

For most clinical or diagnostic lab services, you pay a \$10 copayment in the Classic plan or a \$20 copayment in the Plus plan. For the other plans, you do not pay a copayment for most clinical or diagnostic lab services. You may be responsible for a doctor's office visit copayment.

You pay a \$35 copayment for complex diagnostic tests. These tests include MRIs, PET scans, CT scans, nuclear medicine studies, EKGs and cardiac stress tests. You may be responsible for a doctor's office visit copayment.

You pay a \$35 copayment for radiological therapeutic lab services (radiation therapy) and chemotherapy, regardless of place of treatment. For renal dialysis, the copayment is \$25 for Classic, \$30 for Plus or \$10 for Enhanced and Enhanced Plus. You may be responsible for a doctor's office visit copayment.

## **Part D Prescription Drug Benefits** *(see #29 in Section 2)*

If your plan includes Medicare Part D coverage, you will automatically be disenrolled from your plan if you apply for a Part D plan during an eligible enrollment period. You cannot have two Part D plans at the same time. Your copayments for

Medicare Part D drugs do not count toward your plan out-of-pocket maximum.

### **For Plus and Enhanced Plus Plans:**

#### **Out-of-Network Retail Coverage**

Members will be responsible for the difference between network and out-of-network retail pharmacy costs, except in emergencies or if members do not have adequate access to an in-network pharmacy.

#### **90-Day Supply**

Plan members can obtain a 90-day prescription drug supply through our mail-order pharmacy or certain retail pharmacies that have contracted with us to dispense 90-day supplies.

#### **Generic Benzodiazepines and Barbiturates**

The Plus, Enhanced Plus and Essential Plus plans provide coverage for generic benzodiazepines and barbiturates. These classes of generic drugs are not required to be covered by Medicare Part D plans. A list of these drugs is included on the prescription drug formulary. Copayments for these drugs do not count toward total drug costs or the true out-of-pocket maximum. Generic benzodiazepines and barbiturates are covered with a copay even after total drug costs reach \$2,510 and the total out-of-pocket maximum reaches \$4,050.

## **Hearing Services** *(see #31 in Section 2)*

After you pay your copayment, your plan covers one routine screening hearing exam every year. This is an exam that is not related to treatment or diagnosis for a specific illness, symptom, complaint or injury.

## **Physical Exams** *(see #33 in Section 2)*

After you pay your copayment, your plan covers one routine physical exam each year (not including lab services). This is an exam that is not related to treatment or diagnosis for a specific illness, symptom, complaint or injury.

## **Precertification/Prior Authorization**

You must notify the plan before you receive any planned inpatient care or skilled nursing facility care. In addition, you must contact the plan to precertify human organ transplants, carotid artery endarterectomy, and inpatient or outpatient gastric

surgery for obesity (bypass or banding). You will need to give the plan medical necessity certification from your physician before having any of these procedures. The plan will help you arrange for the procedures to be performed at a designated or approved facility.

### **Foreign Travel**

If you are traveling outside the United States for less than six months, the plan covers medically necessary

care in an emergency room, urgent care center or physician's office. You are responsible for your emergency room copayment or your urgent care copayment in an urgent care center or physician's office.

The inpatient copayment applies for emergency or urgent inpatient admissions while you are traveling outside the United States. This benefit is limited to 60 inpatient days per lifetime.
